

## Material Safety Data Sheet $A7010 - FADE\ AWAY$

Page 1

#### Section 1 – Identification of the Substance/Preparation and of the Company/Undertaking

Product Name: FADE AWAY MSDS#: KIM121302-

Chemical Name: N/A MSDS Initial Approval 1/20/20 MSDS Prepared BSQ Date: 03 by:

Family: Monomer Manufacturer: CNC International BV

Product Use: Nail Liquid

Burgemeersterlaan 2 – 6002 EG Weert - Netherlands
Emergency Phone Numbers:+31-495-5474098
Information Contacts:+31-495-548213

#### Section 2 – Composition/Information on Ingredients

<b>Chemical Identity</b>	CAS Numbers	EINECS#	INCI Name	Exposure OSHA	Limits ACGIH	Carcinogen	%
				TWA/STEL	TWA/STEL	IARC/NTP/OSHA	
Ethyl Methacrylate	97-63-2	202-597-5	Ethyl methacrylate	100 ppm	100 ppm	Not Listed	>99
Acrylic resin	23035-69-2	N/E	Acrylates Copolymer	N/E	N/E	Not Listed	<1
N/E - None Established N/R - Not Reviewed	N/DA - No Data Availa N/A - Not Applicable	able					

Hazard Symbols: Xi F Risk Phrases: R11, R36/37/38, R43 Safety Phrases: S9, S16, S29, S33, S36/37/39, S45

#### Section 3 - Hazards Identification

#### **EMERGENCY OVERVIEW**

This information is based on findings from related or similar materials.

• May cause allergic skin reaction.

• Flammable liquid and vapor!

• May cause eye irritation.

• May cause respiratory tract irritation.

## Potential Health Effects, Signs and Symptoms of Exposure:

Primary Route of Entry Inhalation, skin, eyes

Eye Vapor concentrations may cause irritation of eyes. Liquid contact with eyes can cause irritation and

possible corneal damage.

Skin Liquid concentration may cause moderate skin irritation. Repeated or prolonged contact may cause

allergic skin rashes, itching and swelling which becomes evident on re-exposure to this product.

Ingestion Causes irritation, a burning sensation of the mouth, throat and respiratory tract and abdominal pain.

Inhalation High vapor concentrations may irritate the respiratory system. Prolonged exposure can lead to

headaches, nausea, drowsiness and unconsciousness.

Sub-Chronic Effects Unlikely to present a cancer hazard in man. NOTE: Refer to Section 11, Toxicological Information for Details

#### Section 4 - First Aid Measures

First Aid for Eye
Flush with water for 15 minutes, including under eyelids. Get medical help if discomfort persists.

Wash thoroughly with soap and water. Remove contaminated clothing. Get medical help if discomfort

persists. Wash clothing before use.

First Aid for Inhalation Remove to fresh air. If having breathing difficulty, give oxygen. If breathing has stopped, give artificial

respiration. Get medical help if discomfort persists.

First Aid for Ingestion Rinse mouth out with water. Only induce vomiting if directed by a physician. Never give anything by

mouth to an unconscious person. Seek prompt medical attention.

## Material Safety Data Sheet $A7010 - FADE\ AWAY$

Page 2

#### Section 5 - Fire Fighting Measures

Flash Point	Flammable Limit	Auto-ignition Temperature	
(°F/°C)	(vol%)	(vol%)	
Set-a-flash: 60°F/16°C	LEL: 1.8%; UEL: N/DA	771°F/411°C	

**Method:** 

Extinguishing Media: Foam, Carbon Dioxide, Dry Chemical.

Fire Fighting Wear self-contained breathing apparatus and full protective gear. Water may be ineffective Instructions: unless used as a fine spray or fog. Use water spray to cool the exposed containers of

methacrylate monomer.

Unusual Hazards: Vapors may travel to source of ignition and flash back. Avoid ignition sources or excessive

temperatures. Heat can induce polymerization with rapid release of energy. Closed containers

may rupture explosively. Spontaneous polymerization may occur on prolonged aging.

#### Section 6 - Accidental Release Measures

Spill or Release Procedures

Storage

Eliminate all sources of heat and ignition. Use absorbent material for spills and dike it, wash spill material into retaining containers. Place containers in a well ventilated area. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. Keep unnecessary and unprotected personnel from entering. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect liquid in an appropriate container or absorb with an inert material (e. g., vermiculite, dry sand, earth), and place in a chemical waste container. Do not use combustible materials, such as sawdust. Do not flush to sewer! US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll free number for the US Coast Guard National Response Center is (800) 424-8802. EU Regulations require the consultation of Directive 98/24/EC. If a leak or spill has not ignited, use water spray to disperse the vapors, to protect personnel attempting to stop leak, and to flush spills away from exposures.

#### Section 7 - Handling and Storage

Handling Keep away from heat, sparks, flames and other sources of ignition Avoid contact with eyes, skin and

clothing . Avoid breathing vapor or mist . Use with adequate ventilation. Ground all metal containers when transferring and use explosion-proof equipment. Follow all MSDS/label precautions even after the container is emptied because it may retain product residues. Wash thoroughly after handling. Store in a cool, dry area. Keep container closed when not in use. Store at ambient temperatures

out of direct sunlight. Store in a well ventilated place. Store in accordance with National Fire Protection Association recommendations. Maintain air space inside storage containers. Inhibitor requires air (oxygen) contact to function. Check inhibitor levels after 3 months and return to

original level.

Explosion Hazard Avoid ignition sources or excessive temperatures. Heat can induce polymerization with rapid

release of energy. Closed containers may rupture explosively. Spontaneous polymerization may occur

on prolonged aging.

#### Section 8 - Exposure Controls / Personal Protective Equipment

Engineering Controls Facilities storing or ultilizing this material should be equipped with an eye facility and safety shower.

Use process enclosures local exhaust ventilation, or other engineering controls to control airborne

levels below recommended exposure limits. Use explosion-proof ventilation equipment.

**Personal Protective Equipment** 

General To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard

assessment in accordance with the OSHA PPE Standard (29CFR1910.132), or European Standard EN166 be conducted before using this product. Provide eye wash stations and safety showers. Wear impervious clothing to prevent ANY contact with this product, such as gloves, apron, boots, or whole body suit.

Nitrile rubber is better than PVC.

## Material Safety Data Sheet $A7010 - FADE\ AWAY$

Page 3

Eye/ Face Protection

Wear safety glasses. Wear coverall chemical splash goggles and face shield when possibility exists for eye and

face contact due to splashing or spraying material.

**Skin Protection** 

Use impermeable clothing to prevent ANY contact with this product, such as gloves, apron, boots, or whole body

suit. Nitrile rubber is better than PVC.

Respiratory Protection

A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain limited circumstances where airborne concentrations are expected to exceed exsposure limits. Protection provided by air purifying respirators is limited. Wear a NIOSH/MSHA or European Standard EN 149 approved full-facepeice airline respirator in the positive pressure mode with emergency escape provisions. Follow OSHA repsirator regulations found in 29 CFR 1910.134 or European Standard EN 149.

#### Section 9 - Physical and Chemical Properties

Appearance	Odor & Odor Threshold	$_{\mathrm{P}}\mathrm{H}$	Specific Gravity	Viscosity	% Volatile
Clear, colorless liquid	sharp ester-like odor	N/A	(H20=1): 0.918	N/DA, mPas	W/W %: 99+
_	-			@ 20°C	

Boiling Point/ Freezing Point	Decomposition Temperature	Octanol/Water Partitioning Coefficient Log Po/w	Vapor Pressure:	Vapor Density	Evaporation Rate	Ignition	Solubility In Water (20°C)
244°F/118°C	N/A	N/DA	mm Hg: 15	(Air =1):	(Butyl Acetate = 1):	N/DA	N/DA @ 20°C
			@ 20°C	>3.9	N/DA		

Flash Point	Flammable Limit	Auto-ignition Temperature
(°F/°C)	(vol%)	(vol%)
Set-a-flash: 60°F/16°C	LEL: 1.8%; UEL: N/DA	771°F/411°C

#### Section 10 - Stability and Reactivity

Stability:

Stable

Hazardous Decomposition Products:

Oxides of carbon when burned.

Conditions to Avoid:

**Incompatibility (Materials to Avoid):** 

Reducing and oxidizing agents and UV light.

**Hazardous Polymerization:** 

May occur

Temperatures above 40°C, oxidizing or reducing agents, peroxides and amines, storage in absence of inhibitor, and inadvertent addition of catalyst.

#### Section 11 - Toxicological Information

Acute Oral Toxicity	Acute Dermal Toxicity	Acute Inhalation Toxicity	Irritation - skin	Irritation - Eye	
Oral (Rat) LD50:	Dermal (Rabbit) LD50: >	Inhalation (Rat) 4-hour	N/DA	N/DA	
13,468 mg/kg	10,000 mg/kg	LC50: 8300 ppm			
contains a very low concentration of active components, the primary toxicological information is from the monomers.					

Further hazardous properties cannot be excluded. The product should be handled with care when dealing with chemicals.

Sensitization	Mutagenicity	Sub-chronic Toxicity
N/DA	The compound does produce genetic damage in mammalian cell cultures, but has not been tested on animals	N/DA

#### Section 12 - Ecological Information

#### **Ecotoxicological Information**

Acute Toxicity To Fish	Acute Toxicity to Invertebrates	Acute Toxicity to Algae	Bioconcentration	Toxicity to Sewage Bacteria
N/DA	N/DA	N/DA	N/DA	N/DA

#### Chemical Fate Information

Chemical Late Information			
Biodegradability	N/DA		
Chemical Oxygen Demand	N/DA		

# $\hbox{Material Safety Data Sheet} \quad A7010-FADE\ AWAY$

Page 4

To the best of our knowledge, the ecotoxocological and chemical fate properties have not been thoroughly investigated. Do not allow to enter drinking water supplies, wastewater, or soil.

#### Section 13 - Disposable Considerations

Dispose of diking materials and absorbent in compliance with State, Local, and Federal regulations. Residual vapors may explode on ignition; do not cut, drill, or weld on or near the container. Mix with compatible chemical which is less flammable and incinerate. Whatever cannot be saved for recovery or recycling should be handled as hazardous waste and sent to a RCRA approved waste facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements. For EU Member States, please refer to any relevant Community provisions relating to waste. In their absence, it is useful to remind the user that national or regional provisions may be in force.

#### Section 14 - Transport Information

DOT (49 CFR 172)	
Proper Shipping Name:	Ethyl Methacrylate, 3, UN2277, PGII
Identification Number:	UN2277
Marine Pollutant:	No
Special Provisions:	T1
Emergency Response Guidebook (ERG) #:	129P (possible polymerization risk)
IATA (DGR):	
Proper Shipping Name:	Ethyl Methacrylate, stabilized, 3, UN2277, PGII
Class or Division:	3
UN or ID Number:	UN2277
Packaging Instructions:	
Emergency Response Guidance (ICAO)#:	3L
IMO (IMDG):	
Proper Shipping Name:	Ethyl Methacrylate, stabilized, 3, UN2277, PGII
Class or Division:	3.2
UN or ID Number:	UN2277
Special Provisions & Stowage/Segregation:	
Emergency Schedule (EmS)#:	F-E, S-D
Other Information:	Flash point = 16°C

#### Section 15 - Regulatory Information

**US Federal Regulations** 

es i caci ai Regulations	
Clean Air Act: HAP/ODS	This product contains the following hazardous air pollutants (HAP) as defined by the U.S. Clean Air
	Act:
	NONE
	This product contains ODS.
Clean Water Act: Priority	This product contains the following Priority Pollutants and Hazardous Substances as defined by the
Pollutant/Hazardous Substance	CWA:
	• NONE
FDA: Food Packaging Status	This product has not been cleared by the FDA for use in food packaging and/or other applications as
	an indirect food additive.
Occupational Safety and Health Act	This product is considered to be a hazardous chemical under the OSHA Hazard Communication
	Standard. Its hazards are:
	Immediate (acute) health hazard
	Fire hazard
RCRA	This product contains chemicals considered to be hazardous waste under RCRA (40 CFR 261):
	• Ethyl methacrylate CAS# 97-63-2, RCRA Code U118
	Characteristic of Ignitablility: RCRA Code: D001

# 

Page 5

SARA Title III: Section 302 (TPQ)	This product contains no chemicals regulated under Sec. 302 as extremely hazardous substances.
SARA Title III: Section 302 (RQ)	This product contains chemicals regulated under Section 304 as extremely hazardous chemicals for emergency release notification ("CERCLA" List):  • Ethyl Methacrylate CAS# 97-63-2, RQ(Lbs): 1000
SARA Title III: Section 311-312:	This product is considered hazardous under the OSHA Hazard Communication Standard and is regulated under Section 311-312 (40 CFR 370). Its hazards are:  • Immediate (acute) health • Fire hazard
SARA Title III: Section 313:	This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:  NONE
TSCA Section 8(b): Inventory:	This product contains chemicals listed on the TSCA inventory or otherwise complies with TSCA premanufacture notification requirements.
TSCA Significant New Use Rule:	None of the chemicals in this material have a SNUR under TSCA.

**State Regulations** 

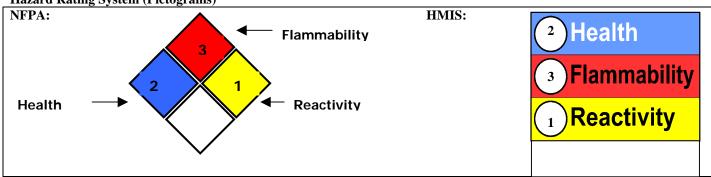

CA Right-to-Know Law:	NONE
California No Significant Risk Rule:	NONE
MA Right-to-Know Law:	Ethyl methacrylate CAS#97-63-2
NJ Right-to-Know Law:	Ethyl methacrylate CAS#97-63-2
PA Right-to-Know Law:	Ethyl methacrylate CAS#97-63-2
FL Right-to-Know Law:	Ethyl methacrylate CAS#97-63-2
MN Right-to-Know Law:	NONE

**International Regulations** 

international Regulations	
CDSL: Canadian Inventory (on Canadian Transitional List)	Ethyl methacrylate CAS #97-63-2 is on the DSL List. WHMIS = B2, D2B.
EINECS: European Inventory:	<ul> <li>FADE AWAY</li> <li>HAZARD SYMBOLS: Xi, F: Irritant, Highly Flammable</li> <li>RISK PHRASES: R11: highly flammable, R36/37/38: Irritating to eyes, respiratory system and skin, R43: May cause sensitization by skin contact</li> <li>SAFETY PHRASES: S9: keep container in a well ventilated place, S16: keep away from sources of ignition- no smoking, S29: do not empty into drains, S33: take precautionary measures against static discharges, S36/37/39: wear suitable protective clothing, gloves and eye/face protection, S45: In case of accident or if you feel unwell, seek medical advise immediately (show the label where possible)</li> </ul>
